

Comparing Numbers

1. Use $<$, $>$ and $=$ to compare numbers.

$15 \quad \square \quad 17$

$25 \quad \square \quad 22$

$23 \quad \square \quad 25$

$41 \quad \square \quad 43$

$29 \quad \square \quad 27$

$56 \quad \square \quad 56$

$33 \quad \square \quad 35$

$62 \quad \square \quad 61$

$21 \quad \square \quad 27$

$40 \quad \square \quad 30$

$13 \quad \square \quad 14$

$25 \quad \square \quad 20$

$19 \quad \square \quad 21$

$41 \quad \square \quad 34$

$34 \quad \square \quad 36$

$59 \quad \square \quad 63$

$56 \quad \square \quad 53$

$20 \quad \square \quad 20$

2. Compare with $<$, $>$ and $=$.
